Tropic Dawn

Rarest of All Tulips

This gorgeous new Tulip creation is being offered to the public for the first time this autumn. It is of the Cottage type—a sport of Dido. After several years of carefully selecting only those bulbs producing the choicest colored blooms, it has been developed to its present standard of size and gorgeous coloring.

The flower is a vivid red, striped and mottled in a most unique pattern with pure basic yellow. From one-fourth to one-third of the total petal surface is yellow, blended and intermingled with red in such a manner as to remind one of the flaming and vivid colors of the sky at sunrise in the tropics. Hence its name, Tropic Dawn.

When used alone, it affords a spot of resplendently beautiful coloring in the garden. When utilized in connection with an assortment of varieties, it adds a touch of magnificence that greatly enhances the beauty of any Tulip planting.

TROPIC DAWN is offered exclusively by Whitten, as under special contract with the originator we control the entire supply of saleable bulbs. **Be sure to add this new variety to your Tulip collection.** You'll not be disappointed.

PRICE: \$1.00 each; 3 bulbs for \$2.50, postpaid in U. S.

We guarantee all of our nursery stock to be fully up to grade, of good quality, free from disease, and absolutely true-to-name; also to reach destination alive, and in good growing condition, except when loss or damage is occasioned by strikes or acts of God. proper care a planting lasts for a lifetime, and the first crop will pay for the plants.

They're Easy to Grow! Just plant the bushes 5 by 7 feet apart, and cultivate as you would any bush fruit. Cultivated Blueberries require an acid soil, good drainage, and an ample supply of moisture.
